

Over a thousand ventures have been crowdfunded since it became legal 2 years ago. Know how many investors have made money?

Most, if not all, have not made any money.

- Why?**
- It takes a lot of work to identify good investments
 - It's even harder if you don't have securities sales experience
 - Nobody on the executive board of any of the 35 platforms has even 10 years experience marketing good investments
 - Crowdfunding has grown out of a need for funding for those who can't otherwise get it
 - The platforms get paid whether the investment is a good one or not

Why we'll fix the problem

- We attract and rely upon business brokerages to do their due diligence as well, giving only good options and in some cases investors familiar with the business
- We keep our expenses so low and cashflow is so good that only a small piece of that market will more than double investment.
- We are not requiring investors to fund fixed expenses like salaries, offices, tech, etc.

Why we are sure we'll succeed

- We don't post a deal that isn't approved by our investment team with experience selling thousands of good investments
- Securities marketing VP for over 80 brokerages, 4 decades
 - Securities attorney, 4 decades
 - Commercial banker, 4 decades

Our team raised over \$14M for businesses last year

\$150,000 Total Raise	11 months Break Even	89% ROI/yr	\$7.5M Exit

What we need

- We are seeking an investor to become a full partner with his check for \$150,000
- Note that all your money goes to build and market the platform. There are no salaries, office space or other fixed costs.
- You can help with referrals of investors you know, like you, that are interested in great opportunities for themselves and their communities

What you get

- We estimate between \$11 to \$15k coming to you each month
- We have a dynamic revenue and equity sharing plan to get your investment repaid quickly.
